NPCC WEBINAR SCHEDULE

ALL WEBINARS ARE 11:00 AM – 12:00 PM PST.

DENTAL BILLING MEDICAL

Our medical billing webinars will teach you the most important aspects of medical billing: knowing when to bill medical, diagnosis codes, procedure codes, preauthorizations, and the CMS claim form. Even the most seasoned dental biller can find billing medical insurance to be daunting at first! Let us teach you during our interactive webinars. Practices (and patients) benefit from submitting medical claims. Learn now!! There are multiple sessions available for you to choose from. Register for four, get the fifth free! Call us at (800) 669-3328 to take advantage of the special.

SESSION INFORMATION

ALL WEBINARS ARE FROM 11:00 AM – 12:00 PM PST.

Wednesday, 6/17/2020

Register by 5/28 to save \$20!

When Should You Bill Medical? (E) Knowing which procedures are most likely to be paid by medical coverage will save a practice valuable time and resources. Learn which procedures should be submitted to medical insurance. Finally understand policy provisions, preauthorizations, and what you must ask your patients. Transitioning to medical billing requires a new awareness, additional training, enhanced documentation, and a certain level of patience while these changes impact your practice.

Thursday, 6/18/2020

Register by 5/29 to save \$20!

CMS-1500 Claim Form Step-by-Step Instructions (A) This webinar will teach you what you must know about how to complete the CMS-1500 claim form correctly. We go box-by-box so that by the end, you know what information goes where. If you have had to deal with rejected claims, mistakes that have delayed the processing and payment of claims, or even patients being told that you are submitting things incorrectly; you are not alone! Learn how to bill successfully! Become more efficient and effective!

Tuesday, 6/23/2020

Register by 6/3 to save \$20!

Medical Cross-Coding for the Dental Office (F) CDT codes are not widely recognized in medical insurance. Some dental codes will have applicable medical codes while others may not have a medical code. Both CDT and CPT codes are updated annually. Exposure to codes, definitions and their usage is the responsibility of the biller submitting a claim. Learn how to use modifiers to be paid for all the services you rendered.

Wednesday, 6/24/2020

Register by 6/4 to save \$20!

Diagnosis Coding for the Dental Office (D) Diagnosis coding is a new concept to the dental office that has never filed a medical claim. All medical claims require a diagnosis code which must be established by the provider. Claims are paid or denied based upon a medical condition and medical necessity. Becoming familiar with ICD-10 codes is imperative for dental providers who must bill medical.

Tuesday, 6/30/2020

Register by 6/10 to save \$20!

Controlling Your Fee Schedule (L) Negotiating contracts and fee schedules is something most dentists don't feel equipped to do. The result is a business controlled by bad insurance contracts and fee schedules that don't pay you what you're worth. Sometimes, they do not even cover the cost of performing the service! Learn how to negotiate those contracts and fee schedules that don't work for you anymore!!

Coordination of Benefits (I) Coordination of benefits (COB) between dual insurances has always been complicated. There are numerous provisions, plans, and methods of calculation that make these issues difficult to resolve. Determining the primary versus the secondary carrier, what contractual write-off applies, and what rules apply when a provider is in-network with one plan and not the other are some of the basic questions regarding COB. The inclusion of medical insurance into the world of the dental office has made the task of coordination much more complicated for the dental office.

REGISTRATION INFORMATION

The registration fee is \$119.00 per webinar per registrant. We offer a \$20 discount if you register twenty (20) days prior to the webinar bringing the price to \$99! Each registrant must have a unique email. Your registration fee includes 90-days access to our toll-free helpline for any questions or issues that arise after the series. The helpline is designed to answer your questions on billing, coding, and compliance issues. We answer questions you have, help you implement new information, and help with those claims that you are fighting to get paid. We do not limit your questions to webinar topics. If you are having any issues, like claim denials, reductions, or problems when you are billing medical; we can help you!

REGISTER FOR FOUR WEBINARS AND GET THE FIFTH FOR FREE! CALL US TO TAKE ADVANTAGE OF THE SPECIAL!

You will receive a certification of completion via email within seven (7) days of the webinar reflecting one CE credit for attendance.

Our webinars are live. You are able to ask questions and interact with your speaker throughout. You also have 30 days after each session to watch the webinar replay as many times as you need! If you are unable to participate on the day of the webinar, register anyway. You will also receive a unique replay link after the session. The link is available for thirty (30) days allowing you to watch (or rewatch) when your schedule allows.
